

JANET OH

FACILITATION | SYSTEMS | AI WORKFLOWS

PROFESSIONAL SUMMARY

Facilitating and working across physical spaces, operational systems, and people. From the retail floor to boardrooms, I've spent my career learning how spaces, workflows, and teams actually function, then bringing that fluency to whoever needs it: shop owners, corporate teams, or individuals navigating new tools.

Experience spans luxury, furniture, fast fashion, FMCG, and sports retail. As an Associate Trainer with the Singapore Institute of Retail Studies (SIRS), I deliver programmes in Visual Merchandising and Retail Excellence, integrating AI tools into training design, content development, and operational problem-solving.
